

EXPLORING™

DISCOVER YOUR FUTURE

Exploring Programs for Students Ages 14-20

Exploring provides exciting activities and one-on-one mentorship for youth looking to discover their future. Whether you're a local organization looking to strengthen the community or a young person wanting to uncover the possibilities of your future,

Exploring is a great place to start.

2019 marks the 70th anniversary of the Exploring program and celebrates decades of opportunities for young adults to become prepared for life. Exploring has touched many hundreds of thousands of young people over the past 70 years and is proud to have welcomed young women in the program for nearly 50 years! To learn more about the history of Exploring, visit www.exploring.org/about-us.

What's going on in Exploring?!

Clarkson College Medical Program Kickoff

The Clarkson College Medical Program kicked off Tuesday, April 16th. Students

got the insight on what programs are offered at Clarkson and what the classroom settings are like. It helps to get hands-on experiences and a vision of what day to day life is like in the medical field. They got the chance to see the type of equipment used, X-rays of different bone structures, and then listen to a student who attended Clarkson College and what his experience was like! This program is 4 weeks long and each week the students will learn about a different academic program that Clarkson offers. Thanks Clarkson College for having us!

Tri County Fire Corps Program

The Tri County Fire Corps Program started back on March 23rd and will run until June 2nd. They have been covering a lot of different topics such as, CPR, search and rescue, ropes & knots, and ventilation. In the next couple weeks they will learn about hose rolls, water supply, auto extrication, forcible entry, and haz-mat awareness to wrap up the program. They have received two certificates, their CPR and Stop the Bleed Certifications. Keep up the good work!
